Aim & Scope:

British Journal of Dairy Sciences is the outstanding publication for peer-reviews original research papers, notes, reviews, and special issues on all aspects of Dairy Science and Technology, submitted from all over the world. The Journal also contains non-research papers of a technical/commercial nature presented at the International Conferences, meetings and reports on the activities of the dairy professionals. The contents of this prestigious journal is abstracted by the leading international databases.

BJDS readers represent education, industry, and government agencies from around the globe with interests in:

- Biochemistry
- Breeding
- Economics
- Engineering
- Environment,
- Food science
- Genetics
- Microbiology
- Nutrition
- Pathology
- Physiology
- Processing
- Public health
- Quality assurance
- Sanitation

Papers related to milk production are not in the scope of the journal, unless there is a clear relationship to dairy technology, human health or final product quality.
